COMMERCIAL CRAFT SERIES

Designed by Akesdesign Ing. Alessandro Chessa open boat also capable in rough sea conditions, 6.13m long (+ optional stern platforms) x 2.30m, building material thick HDPE, foam for unsinkability, about 700 Kg dry weight to be powered from 100 HP up to 150 HP max, deep V shape, high dead rise entry, suitable for all seas, deeply and hardly tested in Sardinia's west coast, stable and soft ride; which are prerequisite for those who enjoy fishing not only in summer. Deck with big bow sundress with locker, protective console, bolster seat with enough space for fridge and cook, aft seat with side passage. Completes the layout the T-top option and stern platforms. The efficiency of the design has been confirmed even in rough sea conditions in 4m of waves. Brilliant performances with only 80 HP with reduced fuel consumption in any weather conditions.
